IMPORTANT

The safety inspection for qualifying water heater installations must, at a minimum, include the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator(s). The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying water heater and with the manufacturer's installation instructions. The Propane Education Foundation of Florida assumes no responsibility whatsoever for the installation, inspection, or testing of the qualifying water heater or any associated gas system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying water heater or the associated gas system. The Propane Education Foundation of Florida disclaims any liability for any personal injury, property damage, business losses, or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying water heater.
